Commissioner for Patents

The examiner has tried unsuccessfully to contact the atty and requests an interview to formally discuss the examiner's amendments that are recited below:

In order to better clarify the language of claim 37, applicant is requested to make the following amendments to claim 37:

line 6 insert "includes recess" after -- a radial inner portion--

line 9 delete "one or more" before --extensions--

line 11 change --susceptor-- to "extensions" and --at least one--to "a plurality of"

Note that the specification and Figure 16 illustrates two crosspieces 108 and 110 and no support is found for one cross piece. Also applicant has failed to establish the difference between the extensions and the cross pieces.
